NAWMA Kerbside Bin Guide

This guide explains how to correctly dispose of your household waste items.

Food & Garden Organics (FOGO) Bin

Use the FOGO bin for all food scraps and plant clippings.

Even things like shredded paper, used tissues, pet waste and cooked food can be disposed of into this bin.

Shredded paper

Leaves, sticks and branches (Limit 100mm diameter) Greasy pizza boxes and food scraps

Tea bags and ground coffee

Tissues and paper towel

These items will be turned into compost to be used on farms and gardens.

Ph: 8259 2100 nawma.sa.gov.au

Using your Kitchen Caddy

When you order a FOGO bin from NAWMA, you will receive a free **ventilated kitchen caddy** and a roll of **compostable bags** to collect your food scraps.

Use a compostable bag to line your caddy and then start to fill it with food scraps.

When the compostable bag is full, place it into the FOGO bin. You will need to change the bag every 2-3 days.

You can get more compostable bags from the supermarket. Look for the AS 4736 logo printed on the bag as these special bags will break down in compost.

You can also wrap your food scraps in newspaper or dispose of them directly into the FOGO bin.

Look for the compostable logo and use this bag

General Waste Bin

The red-lid bin is for dirty, broken and unrecyclable items.

If you have any questions about your bin service, call the NAWMA Customer Service Team on 8259 2100.
